

On behalf of the US Department of Energy, thank you to everyone who helped make the **2001 Boston Regional Rebuild America Peer Forum** a success. Whether you enjoyed the Partnership Close ups, the technical workshop sessions or network opportunities with colleagues, I think we can all agree the region has much to be proud of.

I want to recognize our two sponsors, *Public Service of New Hampshire* and the *New Hampshire Electric Co-op* for their financial support and for exemplifying the benefit of a strong public-private partnership, the foundation of the Rebuild America Program.

To all the presenters, thank you for sharing your leadership, expertise and accomplishments with the region, you are all true energy champions.

Likewise, I want to extend a personal and heartfelt thanks to the 2001 Conference Planning Committee for all their ideas, enthusiasm, time and energy.

Finally, to members of the Rebuild National Team, your tireless dedication to the Boston Region and to the community partnerships themselves, is both appreciated and commendable.

Lastly, special thanks to Cindy Gunn, Deborah Lamm, and Cyane Dandridge for your talent, professionalism and patience.

Gregory T. Davoren
U.S. Department of Energy
Rebuild America Team Leader
